DIAMOND TIPS WITH *Nutrient infusion*

THE TREATMENT THAT Exfoliates, Hydrates & Nourishes

Exofacial is a highly innovative treatment that allows a wide range of nutrient carriers to be infused into the skin during the cleansing, hydrating and exfoliating process, using our customizable diamond micro-dermabrasion tips.

Why ExoFacial is the Best

01

Improved skin radiance, glow, and evens out skin tone.

02

Reduces hyperpigmentation, fine lines, and wrinkles.

03

Fades acne scars, blemishes, and dark spots from sun damage.

04

Treats dry, dehydrated skin, boosting hydration.

05

Enhances skin volume, firmness, and stimulates collagen production.

06

Promotes cell renewal for smoother skin texture.

07

Minimizes enlarged pores and improves stretch mark .

08

Customized treatments for unique concerns.

ACTIVE DERMOINFUSION:

The latest innovation in beauty treatments.

HOW DOES THE EXOFACIAL WORK?

01

HYDRA-EXFOLIATE

The Exofacial treatment exfoliates and extracts using a diamond tip dermabrasion. Simultaneously, dead skin cells are suctioned and transported into a waste container.

02

HYDRA-STIMULATE

Exofacial stimulates circulation and improves blood flow, which aids in tissue repair and reveals smoother skin. This treatment promotes collagen and elastin production, as well as cell renewal.

03

HYDRA-INFUSE

This advanced technology system accepts a number of different serums targeting concerns such as acne, hydration & glowing. These serums are infused into the skin, providing nutrients and allowing for deeper penetration and absorption.

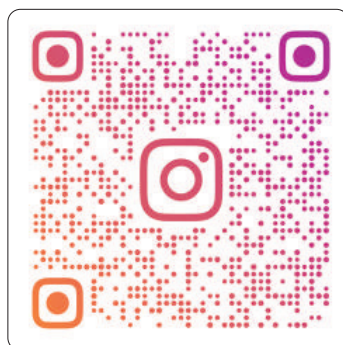

HOW THE TREATMENT COURSE WORKS?

Exofacial is a progressive rather than aggressive treatment. The epidermal layers are removed gently and safely over a course of treatments. In a course, the treatment is performed every 14 days. This means that the stratum corneum layer that was removed in the previous treatment has not had the chance to rebuild, also the client's tolerance to the treatment increases.

About Primelaze

Primelaze is India's premier dermatological solutions provider, committed to offering cutting-edge technology and services. Our vision is to enhance aesthetic and corrective dermatology practices in India by introducing the most advanced, safe, and effective medical technologies. With a strong foundation of clinically proven aesthetic technologies and skin health products, we are trusted by over 2,000 doctors across 20+ states and 50+ cities in India, establishing us as the market leader in this industry.
